

CATWALKER GIANT

CHOICE OF 4 PRESENTATION SYSTEMS FOR LARGER OBJECTS

The Catwalker Giant is suitable for displaying larger products weighing up to 30 kg, such as mannequins and designer chairs. Place your products on the catwalk and let them "walk" through your shop window, exhibition stand or museum. Attention guaranteed!

system with four round
display trays. Easy to
move.

Giant Single Lane

The basis of this Route Randon consists of 2 straight sections and 4 curves. By creatively combining straight modules and curve modules, you can create your own desired catwalk. Appendix 1 shows the available conveyor belt modules. The Catwalker is 50 cm wide and 10 cm high. You rent or buy the conveyor including plastic black display plates (Ø 38 cm).

Giant Twin Lane

The base of this Route Return consists of 1 straight section and 2 end sections. Between the end sections, you can connect all kinds of straight modules and curve modules as you wish. Appendix 2 shows the available conveyor modules. The Catwalker is 100 cm wide and 10 cm high. You rent or buy the conveyor including plastic black display plates (Ø 38 cm).

Giant Bagageband

You can place this 400 x 175 cm conveyor belt on any flat surface. Optionally available for hire with a specially designed white base. If you design your own base, please take into account a recess for the motor that protrudes approx. 20 cm below the presentation belt.

Giant Compact

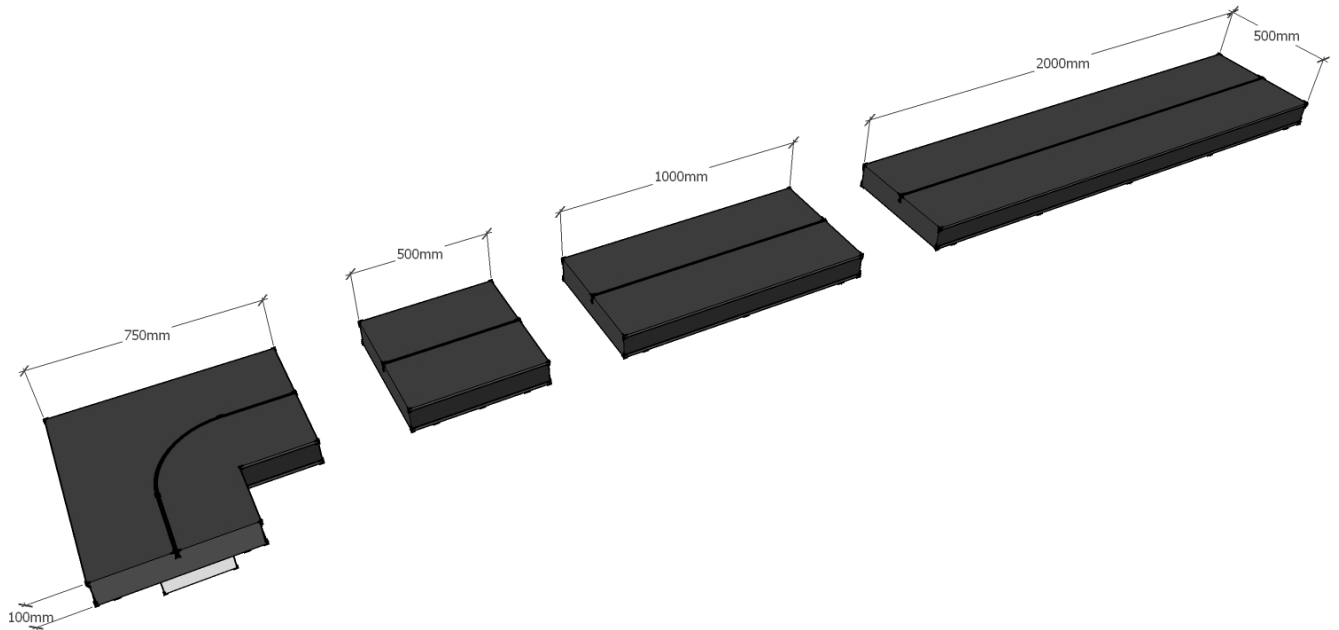

This running belt system is easy to transport and use; just plug it in. The 200 x 120 cm conveyor belt is made of high-quality white.

Questions?

You can also check out the rental/sale Catwalker Giant on our [website](#). There you will find, among other things, all the specifications of this presentation system. Do you have any questions about this Giant presentation belt? Then feel free to contact us!
